

Whitelabel senior development for agencies

We're the call when a project needs more than the agency's usual stack — an integration, a legacy system, or tracking that has to report actual revenue.

DV Made is a small US development studio. We work under your brand. Your client never hears from us unless you want them to.

WHAT WE GET PULLED IN FOR

Integrations

Site to CRM, ERP, booking, or whatever legacy stack the client already runs.

Paid-traffic landing pages

Pages built to convert, not just to look finished.

Revenue tracking

GA4, GTM and call attribution that reports money, not vanity clicks.

Custom builds

Laravel, Vue and Postgres when a template stack is not enough.

STACK

Laravel · Vue · Postgres · GA4 · GTM · REST / webhooks

WordPress, Webflow and Shopify when the project stays on your platform.

RECENT WORK

Manufacturing operations — ERP rebuild

Replaced four disconnected systems with a single quote-to-fulfillment flow, migrated off a legacy database, shipped to production without downtime.

DAYS TO CUSTOMER REPLY

HOW WE WORK WITH AGENCIES

Whitelabel. We work under your name.

Senior-level. You work with the person writing the code.

US-based, Pacific time. Mill Creek, Washington.

Non-solicit. We sign before the first call if you want it.

You own the client. We do not pitch them, ever.

Capacity. Typically 20–30 hrs/week; we can start within a week.

RATES

\$95 / hour

or fixed price per deliverable,
if that is cleaner for you to mark up

Danyil Kucherenko

Co-founder, DV Made

We reply within one business day.
